Insurance

Chief Seattle Council provides accident insurance for its units. Out of council units must have proof of insurance, which should be provided by their council.

Medical Forms

The Annual Health & Medical Record, Parts A & B is required for all participants of Winter Camp. You can find the form on the National BSA website here:

<http://www.scouting.org/scoutsource/healthandsafety/ahmr.aspx>

Special Dietary Needs

If you or a Scout have dietary needs, please complete the **Special Needs Form** in your online account and submit to the Camping Dept. **at least 1-2 weeks before camp.** Food purchase is made the Tuesday before camp so This is the only way we can insure that we will have options available for you.

The camp kitchen can provide meals that consider common dietary needs such as vegetarian, peanut free or gluten free. If there are more involved restrictions you can bring your own special foods and store them in the camp kitchen where refrigeration is available.

Be Prepared!

The weather this time of year can be challenging, so plan accordingly. Between Nov. 1 and April 1, the WSDOT requires tire chains in every vehicle without all wheel drive in the Cascades. The camp elevation is 2,500 feet and weather can be variable. You can check weather conditions through wsdot.com.

The parking lot is small. Carpool as much as you can. No cars are allowed past the parking lot. You will need to pack your gear about 100 yards to your cabin. Carts are available at camp for your convenience.

Weather conditions at camp can change. Plan to bring clothing suited for cold and wet weather.

Parking

AT CAMP

The camp parking lot is small so please carpool if possible. Camp staff will direct you to the Lodge for check-in. Carts are available to transport gear into camp.

ABOUT CAMP

Camp Sheppard is Chief Seattle Council's alpine camp located amid spectacular scenery on U.S. Forest land in the Mt. Rainier National Forest 4 miles down from Crystal Mountain ski resort on Highway 410.

Accommodations

Cabins

All Scouts and adults are housed in nine heated A-frame cabins. Each contains 24 bunks with mattresses and electrical outlets. Male participants will be placed together in separate cabins from female participants. Camp staff will indicate your cabin assignment upon your check in at camp. Unless you reserved a cabin if your pack is large it may be split between two cabins.

Please update your online account with any changes in numbers, including female leaders attending camp. This impacts the manner in which sleeping space is allocated.

Lions are permitted attend with a male parent or guardian but overnight camps are not recommended at this young age. No non-Scout siblings, please.

A limited amount of firewood is available for campfires

Restrooms

Restrooms are centrally located, each with shower facilities.

Dining Hall

The camp Lodge serves as the dining hall as well as provides a warm haven for packs. All meals are served in the dining hall. The camp kitchen can provide meals that consider common dietary needs such as vegetarian, peanut free or gluten free. If there are more involved restrictions please complete and submit a Special Needs Form by a week before your session. You can make arrangements to bring your own special foods and store them in the camp kitchen where refrigeration is available.

POLICY ON PEANUT PRODUCTS AT CAMP

No peanut products, including peanut oil, will be used in the meals, snacks, cracker barrels, or any other food service provided in the dining halls of Chief Seattle Council camps.

While this prohibition is in place in the dining halls, those with allergies must be aware that camp trading posts may contain some peanut products.

It is also important to note that peanut products may be brought to camp by individual Scouts or leaders without the knowledge of the camp staff or the Chief Seattle Council.

Leadership

Adult leaders are responsible for monitoring the behavior of youth Scout members. Two adult leaders, one who must be at 21 years old or older, and are BSA registered, are required. We usually recommend a 1 to 5 ratio for packs or dens but you can use your own discretion. Scout girls must have female leadership. Because of cabin sleeping arrangements, registration changes must be made in your online account at least one week prior to your week-end stay.

We make every effort to place units in the same cabin, but unless you have bought out a cabin, due to space limitations if your unit is large it may need to be split between cabins.

Camp Activities

While at camp, Scouts will have the opportunity to participate in winter activities (weather-permitting), various advancement offerings, crafts, shooting sports, and relaxing during free time and cracker barrel. In the event of little or no snow, fun alternatives will be provided. The Daily Schedule is located on page 10.

Tube Run

Operation of the tube run at Winter Camp depends on snow. **All participants on the tube run are required to bring a helmet. Camp will provide Black inner tubes only.** . No

sleds please.

Trading Post

For your convenience the trading post will be open with snacks, craft items, t-shirts and more. Plan to bring around \$50 for trading post and advancement purchases.

The following is a list of the advancements offered at Winter Camp:
